## AWNINGS

Awnings work in NZ's changeable weather conditions, offering shelter and shade on demand. We have a range of folding arm awnings and drop arm or drop down versions, which help you get the most out of your outdoor living areas.

## BALUSTRADE

For safety in style, choose from our range of trustworthy balustrades, which are available in an aluminium baluster finish or a variety of framed, semi-framed or frameless glass options. Powder coated in NZ in a colour of your choice, HomePlus balustrades are compliant with all NZ building regulations and backed by a 5 year warranty.

## ROLLER BLINDS

Roller blinds let you control the light in your room offering shade, privacy and style. They can be automated or chain winder operated and are available in an extensive range of premium quality fabrics, designed to resist shrinkage and fading.

## WARDROBES & SLIDING DOORS

## FENCING & GATES

HomePlus aluminium fencing is lightweight, robust and reliable for perimeter or pool fencing at your home. Sanctuary gates from HomePlus are strong and custom made to match your fencing or personal style. Available with European automation, these gates will stand the test of time.

Revolutionise the way you organise your home with a range of HomePlus wardrobe organisers. Choose from high quality ventilated wire shelving, built-in ClosetPro melamine organiser or modern, minimalist Alustore wardrobe furniture. HomePlus Wardrobe & Interior doors are custom made in a variety of colours and styles of your choice.

## SHOWERS

All our showers are custom made to suit your needs with a choice of frameless, semi-frameless or framed glass styles. These can be used with tiled surfaces or acrylic linings and trays. We also supply mirrors and bath screens and our team of professionals will customise them all to get the look you want.

## LOUVRE ROOF

An opening louvre roof lets you enjoy your outdoor living area on your terms. You can choose to open up the louvres for more light or air, or if you need some shade just close or angle the louvres to the position you prefer. With hidden pipes, built in drop down awnings and integrated gutters, the HomePlus louvre roof system offers a seamless, modern outdoor living solution for NZ's outdoor lifestyle.

## SECURITY SCREENS

A range of security screens for your doors and windows, including traditional Amplimesh® grille which provides a visual deterrent to unwanted guests and is known for its strength. Or choose a modern alternative - SupaScreen stainless steel or Clearguard aluminium mesh screen, both of which offer maximum strength and security, whilst being virtually see through.

## DOUBLE GLAZING

Winterglaze® Retrofit Double Glazing or Secondary Glazing adds a layer of insulation to single pane windows, for a warmer home in winter. Colour matched to existing joinery, Winterglaze is unobtrusive whilst reducing window condensation and helping to keep the warm air inside your home.

Retractable, modern insect screens for doors and windows, so you can finally be free, once and for all, from flies, mosquitoes and other bugs in your house. HomePlus insect screens are lightweight, easy to use and suitable for either timber or aluminium joinery, with a choice of powder coated colours available to match existing joinery.

## INSECT SCREENS
